

PRICE LIST FOR 1955

YOARS HOUSE PLANT NURSERY

Bunker Hill, Indiana

Please Read Before Ordering

All plants and items offered for sale subject to crop failure or previous sale. At times it is impossible to keep all plants ready for sale at one time, state at time of ordering if we may substitute a plant as good or better than the one ordered, if we are temporarily out at that time. We fill orders to the best of our ability but since we have no control over purchaser's skill, climate or growing conditions we cannot be responsible for the crop.

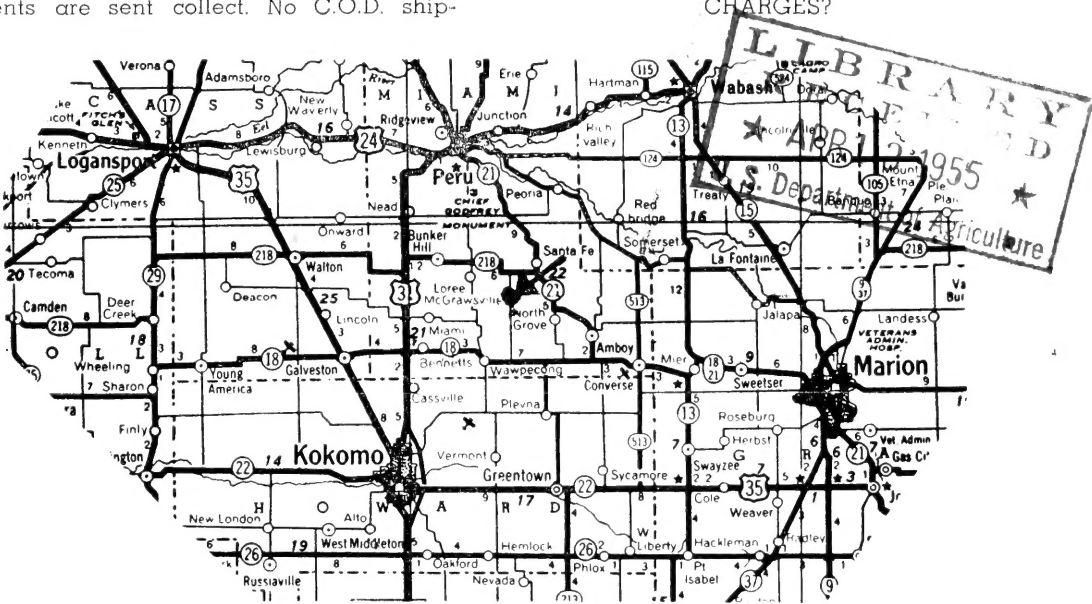

SHIPPING CHARGES: Add \$1.00 to each order for shipping, west of Mississippi \$1.50. All Air, Express and Freight shipments are sent collect. No C.O.D. ship-

ments. Money must accompany all orders, check or money orders are best. We are not responsible for money sent in the mail.

When you receive your order if it has been damaged enough to warrant filing claim for damages, write us, we will file claim and refill the order when we have your co-operation. Do not return plants unless instructed to do so.

VISITORS WELCOME. Your purchases at the greenhouse saves you shipping expense. We are located (see map) 1 mile s.w. of McGrawsville — NOT AT BUNKER HILL, this is our mailing address only. Phone Amboy 158F32.

SODIUM SELENATE: We sell this product in envelopes enough to make 1 gallon of solution. This may be mixed and stored for future use as needed. We like a glass jug, plainly labeled. This treats many plants. When ready to apply lift foliage and apply to soil at edge of pot. It is best to have plants well rooted before using. (It is best to use rubber gloves when handling this product.)

Dosage: 2-inch pot, 1 teaspoonful; 3-inch pot, 2 teaspoonful; 4-inch pot, 1 tablespoonful. May be repeated in two months. Package 25c and a self-addressed envelope, please.

SMITH BRONX SPRAYER:

Spray parts of nickel plated brass, nozzle throws a powerful broad mist, spray with slow easy stroke. Also makes a fine sprayer for dampening clothes. No. 8 Q Bronx (quart size) — \$2.65

N.N.O.R. INSECTICIDE: For all houseplants as well as a garden spray. This is a perfectly safe house spray when used in solution. For an infestation of mite or mealt bug, prepare enough solution to completely cover the plant, add 3 or 4 teaspoonsful of N.N.O.R. to each gallon of cool water. Stir until perfectly mixed. Place the plant in the solution to completely cover it. No harm will result if the plant is left in the solution for several hours. We have tried leaving the plant as long as six hours with the best of results. In this way one dipping is sufficient. Dry in shade. After this, spray about every week to 10 days until all trouble has disappeared. 6 oz. ----- \$1.40

MODERN FOLIAGE PLANTS

by Alfred B. Graf

If you have wondered what your foliage plant may be, this book has the answer. Showing 127 clear pictures that will help you identify many unusual plants that make wonderful house decorations.
